Leader in the Light Award
Feedback: Polling Questions

Leader in the Light award scoring is based on 70% GRESB scoring and 30% supplemental questions.

Do you think this is the right ratio?

RESULTS

Which GRESB/Supplemental Questions ratio is more appropriate to evaluate Leader in the Light Award Participants?

RESULTS

Supplemental Questions for LItL Awards

- ◆ Q1 Define the key financial performance indicators that your company uses for measuring the success of its sustainability strategy. In addition, you can also provide a link to your organization's website where a description is available. (maximum 200 words) **15% (15 points out of 100 points for supplemental questions scoring)**
- ◆ Q2 Energy Efficiency: Enter information for the projects, that best describe the implementation of energy efficiency measures in your portfolio: **30% (30 points out of 100 points for supplemental questions scoring)**
- ◆ Q3 Water efficiency: Enter information for the projects that best describe the implementation of water efficiency measures in your portfolio: **30% (30 points out of 100 points for supplemental questions scoring)**
- ◆ Q4 Renewable Energy: Enter information for the projects that best describe the implementation of renewable energy measures in your portfolio: **10% (10 points out of 100 points for supplemental questions scoring)**
- ◆ Q5 Waste management: Enter information for the projects that best describe the implementation of waste management measures in your portfolio: **15% (15 points out of 100 points for supplemental questions scoring)**

**Should supplemental questions
stay the same for the
competition?**

RESULTS

There are 8-10 winners. One for each sector or award level participant. Should the awards be given to the top performer in each sector as it currently is?

RESULTS

Should all participants be scored and given an award level, such as bronze, silver, gold and platinum?

RESULTS
